

An Informational Meeting of the Town Board of the Town of Lima, County of Livingston and the State of New York was held at the Town Hall, 7329 East Main Street, Lima, New York, on the 30th day of January 2024 at 7:30 P.M. Notice was printed in the Mendon-Honeoye Falls-Lima Sentinel.

**Lima Town Board:** Supervisor Michael Falk, Councilperson Bill Carey, Councilperson Mark Petroski, Councilperson Ron Blodgett, Councilperson Steve Werner; Town Clerk Jennifer Heim, Town Attorney Jim Campbell, Highway Superintendent John Sokolofsky, Town Engineer Eric Weis

**Lima Village Board:** Mayor John Skiptunas, Trustee Brian Smith, Trustee John Wadach, Trustee Carolyn Fleming

**Agricultural Advisory Committee:** Chairman Mike Neenan, Tom Simpson, Ed Blodgett, Jr., Lee DeKramer, Ron Gruschow, Mark Krieger

**Avon Town Board:** Supervisor Dave LeFeber, Councilperson Paul Drozdziel, Councilperson Tom Mairs, Councilperson James Harrington, Councilperson Malachy Coyne

**LCWSA:** Jason Molino Executive Director

**Lima Fire Department:** Steve Mc Grath Fire Chief

**Guest(s):** See attached sheets below.

Supervisor Falk called the meeting to order at 7:30 P.M., with the Pledge to the Flag.

A workshop to discuss one or more possible water improvement projects within the Town of Lima was held.

Jason Molino, Executive Director, of Livingston County Water and Sewer Authority discussed the below handout and open the floor for all to discuss.

There was significant discussion about the previous failed water project, as well as discussion about what a process could look like for exploring a future project. Speakers shared concerns about the process for moving forward with

a different project and parties both in support of and against moving forward with a new project were heard.

Mayor Skiptunas of the Village of Lima stated that the Village Board would be interested in considering any reasonable opportunity which would result in savings to Village residents related to water and which may provide a more stable rate structure.

Supervisor LeFeber from the Town of Avon indicated that his full town board is present and that they properly published notice of attendance at the meeting. Supervisor LeFeber explained that the Town of Avon is present to listen to and observe the discussion as to whether there might be a future possibility of a regional water project between the Town of Lima, Village of Lima and the Town of Avon. The Town of Avon has long-term concerns that its customers on the east side of the Town are served by only one transmission main that crosses under NYS 390 and that such main is aging. If a break or other problem occurs on the east side of the Town of Avon's service area, it is likely that water service to much of the east side will be impacted. If there is a possible future joint water project that would allow a redundant source of water for the Town of Avon to serve its customers east of 390, the Town of Avon would be interested in supporting a possible intermunicipal project that might benefit all parties.

There is a link under the minutes to listen to the meeting.

No Action Taken.

Meeting ended at 9:17PM

# Town of Lima Water Discussion

TUESDAY, JANUARY 30, 2024 @ 7:30 PM

## Lima Water Project

2

- ✓ Why are we talking about this?
- ✓ Why is the Authority involved? What is the Authority's role in this discussion?
- ✓ What information and data did we pull away from the prior process?

## Questions/Thoughts

3

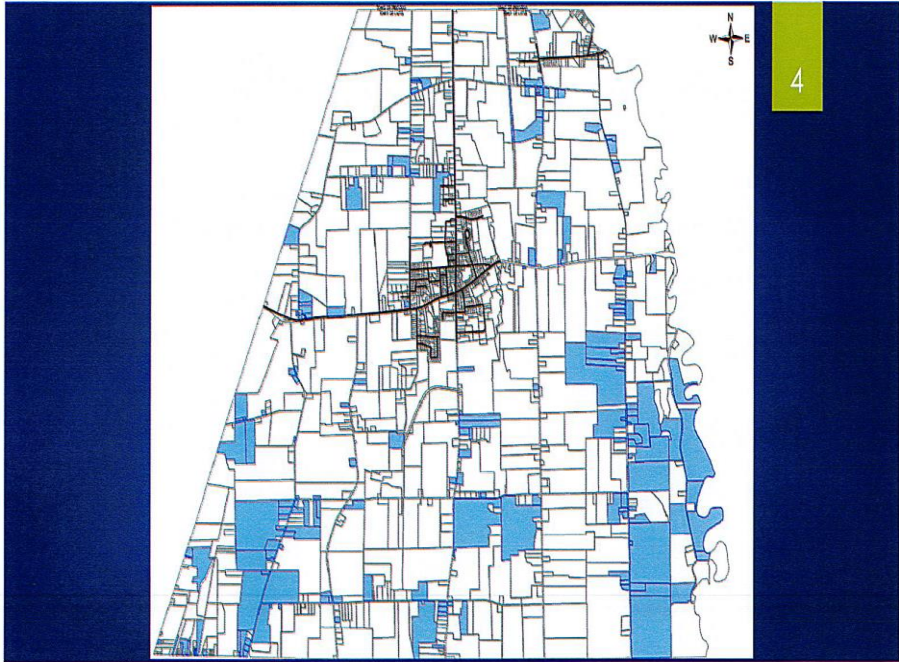

What did you think about the prior....

- ✓ Process - ?
- ✓ Project - ?
- ✓ Data - ?
  - Concern over increased development and preservation of agricultural use of land.
  - Identified concentrated areas within the town that want water.
  - Received a large RD grant award for water project.

## Questions

5

- ❓ If a project can address issues/concerns that have been identified, what objection would there be to providing water to those that want/need it?
- ❓ Can we offer alternatives for providing feedback and comments on process, project and data?
- ❓ Do you want to proceed with evaluating alternate public water project options with new direction?

4
